

Its nice to listen to music without having to listen to dj's or radio shows or just people talking. It is nice to have a choice and if we are willing to pay for the service than we should be able to have it period. It is also nice to have a traffic and weather channel as well as news cause when you are at work all day its hard to know what is going on with the satellite radio I know whats happening on the road in the sky and all around me.
